Hayatabad, Peshawar 🏠

SUMMARY

Motivated and detail-oriented Computer Science undergraduate with practical experience in front-end development, team leadership, and freelance web projects. Skilled in HTML, CSS, JavaScript, React, WordPress, and Tailwind CSS, with ongoing training in the MERN stack. Adept at creating responsive, user-friendly websites and managing client expectations. Proven ability to lead development teams and deliver results under pressure through roles at Quantum Web Innovations and SMIT Peshawar. Eager to contribute technical expertise and creative problem-solving skills to a forward-thinking organization.

- Canva

PROFESSIONAL EXPERIENCE

Quantum Web Innovations

Worked as a Front-End Developer, building responsive and modern websites using React, Tailwind CSS, and other front-end technologies. Collaborated with team members to turn client requirements into user-friendly interfaces and deployed projects using Vercel.

SMIT Peshawar

Led a team of web developers as a Team Leader, guiding junior developers, reviewing code, and ensuring timely completion of assignments and client tasks. Mentored peers in HTML, CSS, JavaScript, and React basics.

Freelance Web Projects

Developed multiple portfolio, business, and landing websites using WordPress and React for clients in construction, healthcare, and retail sectors. Focused on clean UI/UX, SEO basics, and mobile responsiveness.
